

Annex 7-3: Member State Report Denmark

1 - Contacts (if any):

The EC-OE contact BFTL is dormant

2 - Regulatory measures (if any):

DK_A_RM_1_Sailing_Safetymanagement_SME_NAT

3 – Standards (if any):

None

4 – Program safety (if any):

None

5 – Other non-regulatory measures:

Codes of Conduct:

DK_G_CC_1_Sector_Safetyinstrucitons_IP_NAT

Guidelines:

DK_H_GL_1_Rockclimbing_Safetyinstructions_IP_NAT

DK_H_GL_2_Canoe_Safetyinstructions_IA_NAT

DK_H_GL_3_Windsurf_Safetyinstructions_IP_NAT

Certification Schemes:

DK_K_CS_1_Kayak_Traininginformation_IA_NAT

DK_K_CS_2_Orienteering_Traininginformation_IA_NAT

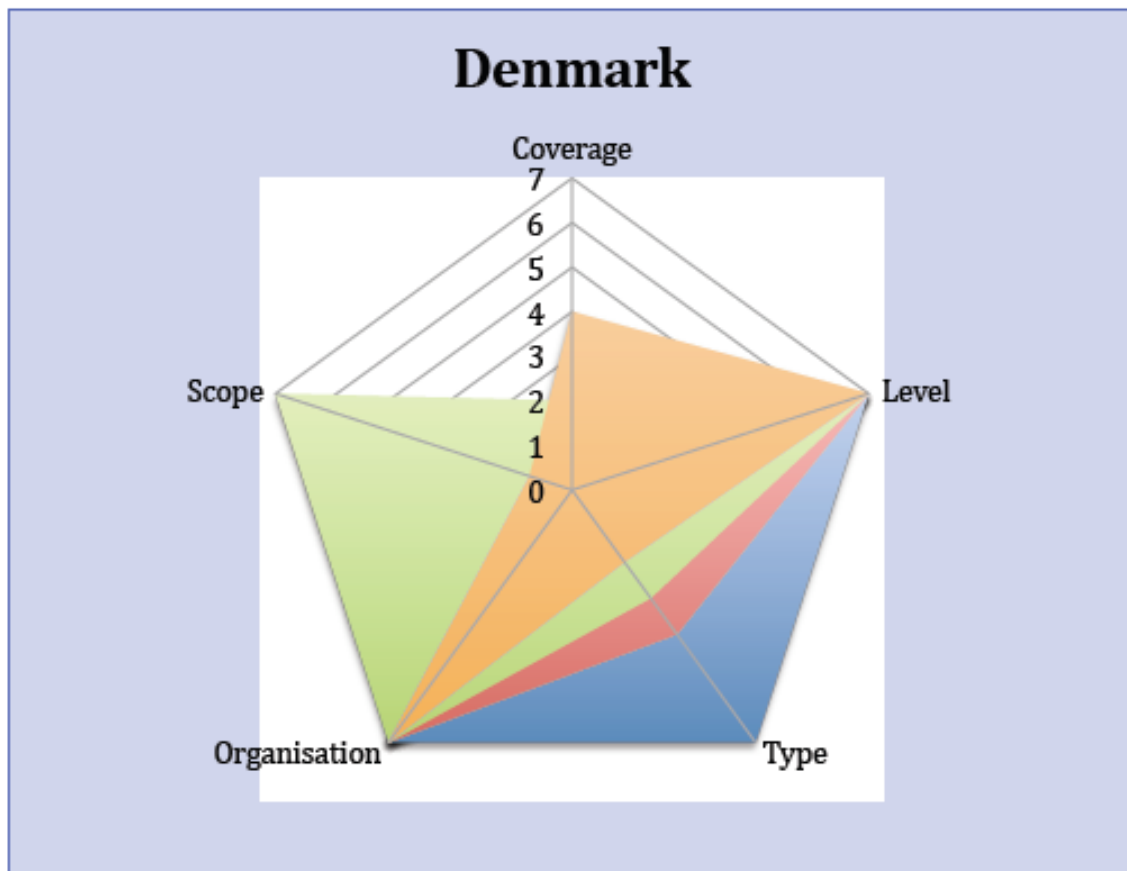

DK_K_CS_3_Rockclimbing_Traininginformation_IA_NAT

DK_K_CS_4_Rockclimbing_Traininginformation_IA_NAT

DK_K_CS_5_Treeclimbing_Traininginformation_IA_NAT

DK_K_CS_6_Seakayak_Traininginformation_IA_NAT

DK_K_CS_7_Sailing_Traininginformation_IA_NAT

6 – Comments:

Denmark does not have a national law that governs the Outdoors in terms of safety. No national or regional, sector or activity based programme safety measure has been found either.

The Danish approach is therefore based on either regulatory or non-regulatory local measures, with a strong input from federations, especially when the outdoor activity has a corresponding sporting activity.

Safety issues in the Outdoors seem to be left very much down to the individual companies as far as management, staff training and customer information are concerned. European and world conventions and standards seem to be taken into account as far as management of the environment and equipment safety are concerned.

The overall effectiveness of measures related to safety of outdoor leisure activities in Denmark corresponds to pattern N°3.
